SWINDLES OF A BIG CITY

By W. O. Jones, of Mt. Vernon

MEMBER OF NEW YORK DETECTIVE FORCE

"SIGNAL readers will possibly be interested in some of the many swindles perpetrated on strangers and immigrants who come to this City and with which I come in contact in my position as Detective in the Police Department of the City of New York. The following are some of them:

"DROPPING THE LEATHER"
This is a very simple swindle. The operator or his confederate walks in front of the victim and drops a pocket book which is immediately picked up in front of the victim, and the operator opens the pocketbook and usually finds two or three one dollar bills which are good money and a one hundred dollar bill which is counterfeit. There is usually a quarrel between the victim and the operator and finally the operator agrees to divide with the victim suggesting that they not go immediately and a id change such a large bill but that they wait until the next day to avoid all suspicion. The operator allows the victim to keep the money but as they are unknown to each other he asks the victim if he has not got enough money or valuables with him to come to half of the amount of what they have found, that he give him what he has, and that he will meet him at a designated place the following day. Of course he does not meet the victim who soon finds out that his supposed treasure is fake.

"BOGUS AUCTIONS"
Bogus auctions are carried on the same as legitimate auctions, with the exception, that several "CAPPERS" or fake bidders are used to "BOOST" the prices. We have several stores here, mostly jewelry and trinket stores, which have large posters announcing that they must sell at once, by auction, all their goods as the owners have gone into bankruptcy. These places have been selling out for the past eight years to my knowledge and the things they have look good but are not worth much.

"GREEN GOODS"
The victim is communicated with by letter in which he is enclosed a genuine one dollar bill, purporting to show the result of a perfect "QUEER". He is invited to come to the city (The victim generally selected being a man out of town). When Complied with he is met at the station by one of the operators and brought to the place where the scheme is to be operated and which is known as the "Turning Joint". Here the victim is shown a bag containing real money; the deal is then made for the purchase of the same, but during the interval the bag is changed for a similar one, which is filled with green paper cut in the size and shape of real bills. On top of each fake bundle is placed a good bill, which acts as a "Steer" to the green paper.

"LEMON GAME"
This is operated in a Pool or Billiard Parlor, where the victim is invited to play and is matched against some "Shark" (Professional player). The victim is allowed to win the first game, but when the stakes are high enough he is swindled out of all he has.

"PICKPOCKETS"
Pickpockets work in gangs of three or four. One of the "Mob" as thieves call a gang, is known as the "Tool" who makes the "Dip" or does the actual stealing, the others of the "Mob" are "Stalls" who crowd the victim, shoving and pushing him or obstructing his way, making it easy for the "Tool" to pick his pocket. Pickpockets are, as a rule, well dressed young men. There are very few old men in the "Graft". They usually work on crowded

From the 5c Extra State Tax now levied for the building of Good Roads in Kentucky, Rockcastle County will pay approximately \$1,500.00 and will receive in return \$12,000.00 annually, provided the Bond Issue for Good Roads carries on Saturday, March 27th. If the Bond Issue fails, we will still have to pay the 5c Pike Tax for the benefit of other counties and will lose our part of the State Aid. Will you vote to throw this enormous amount away every year, or will you vote to keep it for the building of good roads in Rockcastle County?

Cars or other public places where there are a large number of persons. It is very dangerous for any one to carry a wallet in his hip pocket as this is the most convenient place for this class of thieves to relieve you of your money.

We expect to have a little relief from many of these tricksters now that they are going to have the Panama-Pacific Exposition at San Francisco and a large number of them will be attracted there, knowing that they will find their profession more profitable where so many strangers come to enjoy themselves.

I will write you soon again and describe to you some of the many tricks employed by persons here who are sharp enough to swindle persons out of money. Please give my best regards to all of my friends at Mt. Vernon and tell them that if any of them ever come to New York I would like to have them to visit me at No. 150 West 166th street. I am going to try and come back next year for the Fair and I will see you then.

TELL IT STRAIGHT

The following letters explain themselves:

MT. VERNON, KY. Feb. 15, 1915.

Mr. R. C. Terrell,
Commissioner Public Roads,
Frankfort, Ky.

Dear Sir:—

Some of the opponents to the bond issue in this county are taking every unfair means possible in their fight against progress. Several of them are claiming that parties hold letters from you in which peculiar statements are made. Some of these alleged statements are as follows:

"That there is no State road fund."

"That a poll tax can be levied for paying off road bonds"

"That no State aid can be secured except for roads leading across the State from state line to state line"

"That Rockcastle county would get no State aid;" and many other misstatements along this line which are being accredited to your letters

Now we know, of course, that you have made no such statements and desire you to write us a letter, for publication, on the subject.

Very truly yours,

JAMES MARET, Secretary.

Commissioner Terrell's Reply:

COMMONWEALTH OF KENTUCKY
DEPARTMENT OF PUBLIC ROADS
FRANKFORT

February 17, 1915.

Mr. James Maret,
Mt. Vernon, Ky.

Dear Sir:

I am in receipt of your letter stating that certain men in your county have letters from me alleging that I have made the following statements in these letters:

"That there is no State Road Fund."

"That a poll tax can be levied for paying off road bonds."

"That no State aid can be secured except for roads leading across the State from State line to State line."

"That Rockcastle County would get no State aid."

I have made no such statements to anyone in your county, although I have written letters I think to each one of the men mentioned in your letter.

The maximum poll tax that can be levied for all purposes is \$1.50 and its applications is wholly within the discretion of the Fiscal Court. The poll tax in Rockcastle is already \$1.50 and cannot be made any higher. The constitution FORBIDS it. The State Road Fund amounts to between \$600,000 and \$700,000 for the year 1915 and every year thereafter, as long as the law remains on Statute books.

State aid will be granted to all intercounty seat roads, and after their completion, such other roads as may be agreed upon between the Fiscal Court and the State Department of Public Roads suitable to be improved will also be granted State aid.

Rockcastle County will receive its pro rata part of the State Road Fund each year, so long as applications for same is made, and case bonds are voted until she has received one half of the amount of money spent in the construction or reconstruction of roads, in accordance with the provisions of Chapter 87 of the Acts of 1914.

I am glad that the bulletins are doing good and shall be glad to assist you and send you more of these bulletins if they will be of service.

The people of Rockcastle County should be as wide-awake and progressive as those in Bell, and I am sure that they should return a larger majority in favor of the bond issue than was returned by Bell County.

Yours truly,
ROBERT C. TERRELL.
Commissioner of Public Roads.

Rewarded Efforts.

A REWARD of \$500. will be paid to anyone who will show any section of law declaring a poll tax will be levied to pay off the proposed road bonds on which a vote will be taken next month in this county. Now, come forward or forever hold your peace on this poll tax question.

BY A SLIP OF THE PEN OR ERROR IN THE READING OF A LETTER OF COMMISSIONER OF PUBLIC ROADS TO ONE OF OUR COUNTY CITIZENS SOME UNDERSTOOD THAT ONLY ROADS FROM STATE LINE WERE ENTITLED TO STATE AID WHEN THE MEANING WAS MEANT TO CONVEY WAS IN REGARD TO COUNTIES LYING ON BORDER OR STATE LINE THAT SAID COUNTIES ARE TO BUILD THEIR ROADS TO BORDER OR STATE LINE. THE LAW IS PLAIN AND EXPLICIT ON THIS SUBJECT. GET BULLETIN NO. 8 FROM R. C. TERRELL, COMMISSIONER OF PUBLIC ROADS.

THE LIVER REGULATES THE BODY A SLUGGISH LIVER NEEDS CARE. SOMEONE HAS SAID THAT THE PEOPLE WITH CHRONIC LIVER COMPLAINT SHOULD BE SHUT UP AWAY FROM HUMANITY, FOR THEY ARE PESSIMISTS AND SEE THRU A "GLASS DARKLY." WHY? COLDS ARE OFFERED MOST SERIOUS STOP POSSIBLE COMPLICATIONS

The disregard of a Cold has often brought many a regret. The fact of sneezing, coughing, or a fever should be warning enough that your system needs immediate attention. Certainly Loss of Sleep is most serious. It is a warning given by Nature. It is man's duty to himself to assist by doing his part. BRODHEAD.

Some of the reasons why the Brodhead tax payers believe Rockcastle County should vote bonds for road building are:

First. The issuance of bonds by our county would mean but a small increase in taxes which, as the years go by, will be much more than counterbalanced by the increased net income which the farmers in the county will be able to make, due to improved roads.

Second. It makes available sufficient funds to render possible the accomplishment of the construction of a definite number of miles of road within a definite time, while to obtain the same number of miles within the same time by a direct tax is prohibitory on account of the high rate of tax which it would require.

Third. There is no valid reason why our county should not utilize its credit and thus obtain the benefit of an asset which every successful man desires as a prerequisite to his success and advancement.

Fourth. There ought to be no fear of bonds, for business is based on credit. The policy of "pay as you go" has been preached and used to the detriment of this issue and a majority of those who preach this doctrine, would and do operate on a borrowed capital when they can manage to borrow it. We often hear a fellow say "I don't believe in placing a debt on our posterity." Are we not posterity ourselves, and is it fair arrangement that future generations should pay for a portion of the improvements that they will get the full benefit of?

We understand that there are certain merchants in the rural districts of our county that are preaching all kinds false doctrine to their patrons, endeavoring to keep them from seeing their best interests, but deep down in their hearts they are afraid that when improved roads are built their customers will find that they can save money by doing their purchasing elsewhere. Will our people never be satisfied without being hoodwinked? When we are supplied with roads that can be traveled over easily all seasons of the year, then our merchants will be forced to compete with merchants in other parts of the county and we will have the assurance that prices will be made right, but so long as our good people will allow themselves to be hoodwinked in this manner, be made believe that good roads leading to other towns will injure us, and that being in mud up to our eyes will continue to bring prosperity to the merchant who wants to force us to spend our money for the sugar and coffee that he offers for sale, and that we must buy for the reason that we can not reach another town, city or village because our roads are almost dangerous

to travel over, we may expect to number with the dead, and yet have made the world no better by us having lived in it. Let us wake to our sense of duty, and help make our county one of the leading counties of Kentucky, take out of the pauper list, which will mean so much toward its future advancement. It can be done. How? Vote for the bond issue.

Blanche, Bell Co., Ky., Feb. 20, 1915.

Mr. Jas. Maret.

Mt. Vernon, Ky.

Dear Jim:

Your letter received, yes I am heartily in favor of the bond issue and will come home and vote for it, because good roads will make a new Rockcastle. I understand some of the property owners are kicking because they say it will increase their taxes. I wonder if they ever stop to think that they will have to pay the five cent tax (if the Bond Issue fail) to help Bell and the other counties that are taking advantage of this law to build their pikes, while they must keep up their roads the same as they do now which only means making a short mud hole the larger and deeper. I hope and trust the issue will carry by an overwhelming majority for it will come sooner or later anyway and the sooner the better for every citizen of Rockcastle.

Yours truly,

JARVE J. COOK.

PHILANTHROPIST IS IN LEXINGTON

His Theories on Human Ills and Their Correction Win Him Fame

Lexington, Feb. 26, 1915.

L. T. Cooper, the millionaire philanthropist, who has been so widely discussed throughout the East is in Lexington, a guest of the Phoenix Hotel.

Mr. Cooper came to Kentucky from New York, where he spent the past nine months meeting the public and explaining his views on health and hygiene. Mr. Cooper is a man of rare talents, magnetic force and charm of manner. He never ceases to surprise you with the infinite variety of his knowledge and its absolute correctness and thoroughness.

Mr. Cooper claims chiefly that most of the ill health of today is due almost entirely to those habits which best distinguish the white man from the jungle. He says that nine times out of ten it is the result, more or less, of a weakened, out-of-order stomach, and that nine times out of ten these disorders are due to too much eating and drinking, or our careless method of living.

But it is always possible, he says, to make some effort toward healthful living, and in connection with his lectures he is introducing his famous medicine Tanlac to prove his theories.

Tanlac is called the magic medicinal properties of a plant discovered during the researches of Cooper's uncle, the renowned scientist, on an island in the Pacific ocean, west of Mexico.

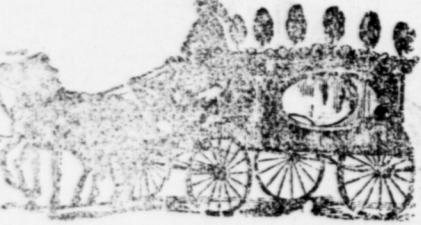

Compounded in Cooper's great laboratory, even as mysteriously as famous mineral waters are formed, the science of man, the chemist's skill and acquired medical lore, are set at defiance by Tanlac so far as imitation is concerned.

Tanlac, it is claimed, quickly overcomes stomach, kidney and intestinal ailments, and will actually prolong life by restoring and keeping up the vigor of youth.
